Sustainability

Sustainability is at the heart of everything we do at Jetinno. Our commitment to the safety and well-being of our employees is the foundation of our exceptional products and services.

We adhere to the highest international standards, including ISO 9001 and ISO 14001, in order to advance our safety, quality, and environmental policies.

Our goal is to create a more sustainable world for our customers, employees, and society, and we strive to achieve that goal every day.

Our Vision

Become a world-class coffee equipment manufacturer

Our Mission

Make high quality coffee equipment & inspire people's life.

Corporate Value

Be creative & self-motivation, Innovate to create a better life.

Corporate Creed

Pragmatic & hard-working, Cooperation with full initiative.

History

2013
· Established

2014
· Launched coffee vending machine

2015
· Launched table-top coffee machine

2016
· Jetinno entered overseas market.

2017
· Won strategic investment from Rontai Health
· Set up Jetinno new R&D center

2018
· Started ODM cooperation with La Cimbali
· Launch coffee machine with ice maker
· Join EVA, NAMA associations

2019
· Built Jetinno overseas stores
· Set up a Jetinno subsidiary

2020
· Started cooperation with Luckin Coffee
· Started cooperation with Schaerer
· Built Jetinno 2nd workshop

2021
· Imported IPD management system
· Launched JL35 series coffee machines

2022
· Won "Green +" Enterprise Award
· Launched JL852 Premium coffee vending machines

2023
· Launched JL15/30 series coffee machines

Advantage

More than a decade of hands-on expertise and ongoing innovation

Joris Hendriks
Jetinno's Chief R&D Advisor

2600+㎡ R&D Center with 4 labs
Standard IPD system for new product development
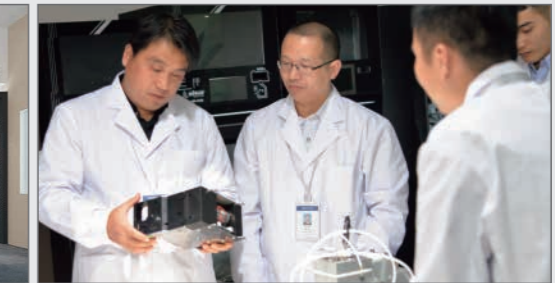

70+ R&D engineers
150+ patents

Crafting top-quality machines by meticulous 406 production processes

2 factories
10,000+㎡ workshops

Over 100 production operators
Annual output of 100,000+ units.

ISO system conformity
Multiple product certifications

Customer service

Jetinno adheres to the service principles of integrity, reliability, responsibility, and efficiency. These principles have been integrated into every aspect of our operations, from product design, production, and sales to after-sales service, ensuring that we deliver professional service to our customers promptly and enhance customer satisfaction.

Core Modules

Equipped with multiple international patented hardware modules, are custom-produced by high-quality international suppliers to ensure the overall stability and reliability of Jetinno coffee machines, providing hardware support for high-quality products.

Grinding system

Swiss Ditting EMH64 Grinder

- 64mm flat burr (steel)
- 650,000 grind cycles

Jetinno PGH64 Grinder

- 64mm flat burr (steel)
- 125,000 grind cycles

Extraction system

Jetinno Espresso Brewer

- Jetinno patent
- 6-14g/ 8-20g
- Pre-infusion
- Lifetime: 125,000 times

Jetinno Filter Brewer

- 6-11g coffee and tea powder
- Pre-infusion technology
- Easy of cleaning

Foaming system
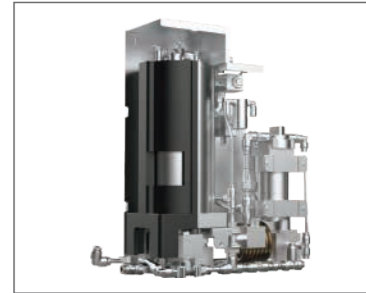

Hot&Cold milk foam unit

- Italian Fluid-o-tech milk pump
- Hot/cold milk foam & milk
- Automatic timed cleaning

Hot milk foam unit

- Hot milk & milk foam
- Froth temperature above 60°C
- Easy Cleaning

Water System

Hot Water System

- 92°C extraction temperature
- 9 bars of coffee extraction pressure
- Real-time monitoring

Ice Maker

- Precision ice control technology
- Capacity of 1.5kg
- Daily ice production of 72kg

Automatic Cup System

Cup Dispensing

- 5 columns of cups
- Real-time monitoring
- No-cup alert

Lid Dispensing

- Real-time monitoring
- No-lid alert

Mixing System

Powder canister

- Precision control
- Residue-free powder
- Easy cleaning

Mixer

- Tunnel-type dehumidification
- Adjustable mixing speed

Application scenario

With a deep understanding of customer needs, Jetinno expertly crafts top-tier commercial coffee machines, and provides comprehensive solutions for OCS, Ho.Re.Ca, Vending, and Coffee to GO segment markets.
